My woodworking background and passion for building beautiful things lead me to fall in love with web programming. I find joy in planning, testing, and experimenting with new tools and technologies - I am currently seeking a front-end junior position where I can demonstrate my broad range of skills and creative approach to problem-solving.

## PROFESSIONAL EXPERIENCE

### **Full-Stack Developer Intern** Altooro (Feb-April 2022)

Developed new features and enhanced existing ones to the microservice architecture platform using **TypeScript**, **React**, **NextJs** and **Material-UI**. Enabled users to link their personal **GitHub** accounts using **OAuth 2**. Wrote front-end automated tests using **Cypress**.

### **Full-Stack Developer Bootcamp** Appleseed Academy (2021-2022)

An intensive 6-months training program. I learned front-end skills such as **HTML**, **CSS**, **JavaScript**, **React**, and back-end skills such as **NodeJs** and **MongoDB** database.

Final project- Used **React** and **NodeJS** to create a book database where users can be **Authenticated**, register books, search through catalogs, create a reading list, and get recommendations based on previous searches.

Mid project - A **React** crime app, making calls to the FBI crime database and Most Wanted **APIs** using **Axios**. Used **CRUD** methods to manage user accounts.

### **CNC Lead** and Cabinetmaker - Madatech, National Museum of Science Technology and Space, Haifa, Israel (2014-2020)

I planned, created 3D files for production (using computer graphics programs), and was responsible for machine operation and maintenance.

## EDUCATION

**BA(Hons), Criticism, Communication, and Curation – Art and Design** Central Saint Martins, University of the Arts London, UK (2006-2009)

**Diploma, Fine Arts** Nanyang Academy of Fine Arts, Singapore (2005-2006)

**Diploma, Cabinetmaking and Fine Woodworking** Etz Ladaat School of Fine Woodworking, Galilee, Israel (2014-2015)

**Diploma, Public Relations and Mass Communication** Institute of Public Relations of Singapore, Singapore (2003-2004)

## Tech:

HTML  
CSS  
JavaScript  
ReactJS  
NodeJS  
Express  
MongoDB  
Cypress  
NextJS  
TypeScript

## Languages:

English (fluent, native speaker);  
  
Hebrew (fluent, native speaker)
